Brief outline of course

This course is for students who are keen to extend their study of Design. Students will be able to focus on design and making as a means of developing imagination, critical and reflective thinking, as well as technical and expressive skills.

Students will have a large amount of choice over the aspects of Design they wish to explore: Graphic Design, Product Design, Textiles, Interior Design and Craft Design are some of the possible directions.

The course will be delivered by staff with expertise across the different disciplines,

The ability to innovate, problem solve, adapt and work independently, which underlies all aspects of the specification, is highly valued by higher education and employers alike.

This course is a two year linear qualification consisting of two components:

- Component 1: Personal Investigation, 60% of qualification, internally assessed, externally moderated.
- Component 2: Externally Set Assignment, 40% of qualification, internally assessed, externally moderated.

There is no formal written examination.

Are you interested in:

The development of advanced skills in designing, communicating and modelling concepts using; hand, digital and CAD/CAM techniques forms the backbone of this qualification.
